

Muji Award

Muji is launching an international design competition. A project calling for entries from all over the world of designs that shake up and stir people. The results will be announced at the Milan Salone. Our first theme is "SUMI", We're asking you to focus your design, not on the major pieces that are central to a room, rather to observe the extremes of the space, the unexplored areas of consciousness. We invite anyone in the world to propose a new Muji product!
